FREE-MASON'S
CALENDAR,

FOR THE YEAR

1788,

BEING BISSEXTILE, OR LEAP-YEAR:

CONTAINING,

Besides the usual Matter in other ALMANACS,

a great VARIETY of ARTICLES concerning

MASONRY.

PUBLISHED FOR THE BENEFIT OF

THE CHARITY-FUND,

UNDER THE SANCTION OF

THE

GRAND LODGE

OF

ENGLAND.

L O N D O N :

Printed by *Stephen Clark*, Broker-row, Moorfields ; and
Sold by G. ROBINSON, in Pater-noster Row ; by W. RICHARD-
son, at the Royal Exchange ; and at FREE-MASONS HALL,
Great Queen-Street, Lincoln's-Inn Fields.

P R E F A C E.

THE flourishing state of the Society of FREE-MASONS, and the consequent necessity of a more general communication of its public transactions to individual Lodges than had formerly been adopted, induced the Grand Lodge, in the year 1777, to publish a CALENDAR, which has hitherto been continued. The great Encouragement it has met with is certainly a most flattering circumstance to the COMMITTEE under whose management it has been conducted, as it evinces the utility of the work, and is the best proof that their wishes to accommodate the fraternity have not been altogether disappointed. The profits, arising from this publication, are appropriated to CHARITY; and, every endeavour having been exerted to render it as complete as possible, it is hoped the public at large will find it at least equal to any other work of the kind, and that it will, from such considerations, merit general encouragement, as well as the zealous support of the fraternity. With this view, it may be proper to observe, that, besides the most useful Lists of Grand Offices, and Lodges, with a variety of other masonic articles, it likewise contains a very comprehensive and correct Almanac, and as much matter of general utility as any other Calendar extant.

The ECLIPSES, this Year 1788, will be TWO, both of the Sun; only one visible to us : *Viz.*

June 4th.

Beginning	24 $\frac{1}{2}$ m.	past 7 Morn.
Middle	11	past 8.
End		9 o'Clock.

Digits 3 39, on the Sun's Southern Limb.

November 7th. The Sun will be eclipsed, but invisible to us, as it will be central in $93\frac{1}{4}$ W. Long. and $30\frac{1}{4}$ South Latitude.

The Comet of 1661 and 1532 may now be expected in Return from its Aphelion, at the amazing Distance of more than Four Thousand Million of Miles. — It will probably be seen by us in October, and will arrive at its Perihelion the Beginning of January, 1789, when it will have fallen far within the Orbit of Venus, and be about Fifty-five Million of Miles nearer to the Sun than our Earth is, and consequently in a Degree of Light and Heat six Times greater.

N.B. This Table contains the Interest of 100 l. for all the several Days in the first Column, and at the several Rates of 3, 3½, 4, 4½, and 5, per Cent. in the five other Columns.

To find the Interest of 100l. for any other Time.

As, 1 Year and 278 Days, at 4½ per Cent. Take the Sums for the several Days, as here annexed.

For any other Sum than 100l.

First, find for 100l. as above, and take it so many Times, or Parts, as the Sum is of 100l. Thus, to find for 355l. at 4½ per Cent. for 1 Year and 278 Days:

When the Interest is required for any other Rate than those in the Table, it may be easily made out from them. So, ½ of 5 is 2½, ½ of 4 is 2, ½ of 3 is 1½, ⅓ of 3 is 1, 1-6th of 3 is ½, and 1-12th of 3 is ¼. And so, by Parts, or by adding or subtracting, any Rate may be made out.
